Re: MB Docket No. 04-233

To Whom It May Concern:

I am writing to make my voice heard in regard to your switching a radio station (K-LOVE) from an FM to an LPFM. This is a great concern to me, as a listener of a listener supported station. First, this station is such a great way to get out not only the message of our beliefs, but it is an invaluable tool for local churches to let people know of the different functions that are going on, such as concerts, family support groups, various ministry seminars, etc. Second, the FM signal is not always a strong one in this area. I need to know that no matter where I may be traveling, especially with my children, that I can get something that is completely 100% family friendly & non offensive. This should be a must for every parent who is active in their children's lives. Third, K-LOVE has made such an impact on this area due to its positive messages. I can go just about anywhere & people who one would think wouldn't normally be aware of this station are talking about it. That truly says a lot! That I think is due to the encouragement they offer & the positive messages that come through the music & news stories that are worldwide, as well as local.

I truly do hope that I was able to make my point(s) and that you would please leave the station as it is. I thank you for taking the time to read this letter.

Sincerely,
Mrs. Michelle Y. Santos
